

## Application assessment HSP - CRB

This assessment is designed to make a qualitative selection of the most valid candidate for receiving the one- year grant of 5000 euro, the Holland Scholarship.

More information on the selection criteria of this scholarship can be found here:

<https://www.inholland.nl/inhollandcom/enrolment/finance/holland-scholarship/>

The best suited candidate will be the one who is the best match for the programme and who is most likely to be successful in the international programme, as well as be a valuable addition for the Hogeschool. For this reason the assessment is centered around three topics:

1. Personality
2. Study attitude
3. Engagement with the programme and institution

There are several elements central to the understanding if a student is a good match for the programme and a suitable candidate for the scholarship. These are:

- Being open to other cultures
- Being able to learn at a high level
- Being open to (personal) failure and resilience

In the table below you will find the questions, their purpose and the indicators of satisfactory answers.

## HSP application assessment form

<b>Candidate name:</b>	
<b>Nationality:</b>	
<b>Program of interest:</b>	
<b>Inholland student number:</b>	
<b>Date:</b>	

## Table of questions

<b>Questions</b>	<b>Answer</b>
Give a short introduction of yourself and describe why you think that you the right person for this bachelor programme.	
What would you say is (one of) your strengths? And your weakness? Give an example for each	
How do you feel about making mistakes? Do you tend to avoid making them? What do you do when you make a mistake?	
How do you visualize active engagement with your study programme?
