

Study Check Inholland

You will get acquainted with lecturers and/or students from the degree programme. We hope you get a good impression of the match between you and the degree programme. You will receive the final study choice recommendation from our Central Student Administration via email. More information about the Study Check can also be found at inholland.nl/studiekeuzecheck. Which steps you must take after completing the Study Check is explained below.

Study Check completed: you and the degree programme are a match

If you are a match (possibly with points requiring attention), you can start the degree programme in September.

Study Check completed: you and the degree programme are not a match

If you and the degree programme are not a match, you will likely be disappointed. Just remember that the Study Check is intended to make you aware of your study choice before you start a degree programme, to ensure your choice is in line with your skills, wishes and expectations. If you are not a match, there are two possibilities:

1. You are not a match and you registered before 1 May

The study choice recommendation you received is not binding. You can start the degree programme of your choice in September. We do, however, recommend you consider your choice carefully and why you are not a match.

2. You are not a match and you registered after 1 May

In many cases, the study choice recommendation you received will be binding. Go to inholland.nl/studiekeuzecheck to find out more about the conditions. This means that you cannot start the degree programme of your choice. During the Study Check, the lecturer explained why you were not a match.

If you like, you can request a meeting at the Study Advice Centre to assist you in choosing a different degree programme. The contact details can be found at inholland.nl/studiekeuzeadviescentrum.

Before you can start the degree programme, you must first meet all of the enrolment requirements. An up-to-date overview of the enrolment requirements that apply to you can be found in Selfservice (studentportal.inholland.nl) and in the Inholland Iris app. Make sure you meet all of the applicable conditions as soon as possible.

If you have any questions about your registration or admission, please contact the Central Student Administration by telephone on 023 522 3228 or by sending a WhatsApp message to 06 - 2111 5555 or an email to csa@inholland.nl.

We wish you the best of luck and look forward to seeing you at the end of August!
