You make this test in 45 minutes.</p>

<p>Recommended or required reading and/or other learning resources/tools</p>	<p>Clothing for the clinic</p> <ul style="list-style-type: none"> • White clothing must be worn at the clinic. The white clothes are, long white trousers combined with a white jacket. The jacket needs to have short sleeves, this ensures a proper hand hygiene. Long sleeves of own clothing must be rolled up under the sleeves of the jacket. • Own clothing (shawl or cardigan) is not worn over the jacket. It is neither allowed to wear any long chains or other jewelry over the clinical clothing. • If you are wearing a headscarf, it must be worn in the clinic in such a way that the material of the headscarf does contact the patient or patient's material. The eyes and the face must be properly visible. • The jacket, trousers (and headscarf) must be replaced daily. If during the activities the clothing and/or the headscarf are visibly polluted, they must be immediately replaced by clean clothing. • The jacket, trousers (and headscarf), if any, must be washed at 60 °C. <p>Shoes for the clinic</p> <p>Shoes must be of a closed model and of white in color. The material must be immune to cleaning and disinfecting means (soap, chloride & alcohol). In case of visible contamination the shoes must be cleaned. Plastic slippers over the shoes do not yield any contribution to infection prevention.</p> <p>NOTE: In case you do not have white clinic clothes, shoes and socks please buy them before your exchange is starting. At the Faculty we do not have the possibility to lend clothes.</p>
