Frequently Asked Questions

Are you genuinely interested in developing long-term solutions for our society? Do you find blockchain and artificial intelligence (AI) technology fascinating?

On Friday November 17, you will have the opportunity to immerse yourself in a world of invention and discovery at DigiQuest Amsterdam in the NEMO Science Museum. We welcome you and other students (high school senior year) to join us. Do you want to learn more about this? Check out the following frequently asked questions and answers:

Why is this event being organized by Inholland University of Applied Sciences?
Inholland aspires to bring together youthful talent to investigate present-day issues. DigiQuest Amsterdam's theme, 'A Digital Journey to our Sustainable Future,' aims to inspire young people to explore the future and contribute to a safe, sustainable, and socially just world.

With whom does Inholland collaborate?
Only partners who share an interest in technology and social challenges, such as Deloitte, Rain Forest Alliance, Kennisland, NFT Playground, WAAG, and The Next Web.

How can I get to the Nemo Science Museum, where the DigiQuest Amsterdam event is held?
The Nemo Science Museum is conveniently located near Amsterdam Central Station and is easily accessible by public transportation. Click here for further information on accessibility: Traveling to NEMO Science Museum.

Do I need to register in advance?
Please register by completing the registration form before Friday October 27th if you wish to participate.

Can I take a friend?

Are they as enthusiastic about blockchain, AI, and societal questions as you are? Now we need them! They, too, will have to register by completing the [registration form](#).

Is the event free?

The event is free for participating students and their teachers. By actively participating in the various workshops, presentations, and talk shows, you are contributing to the event.

What language will the event be held in?

Given that this event is international, with participants from around the world, the primary language is English. DigiQuest Amsterdam's workshops, presentations, and talk shows are all in English. However, most of the organization's staff and partners also speak Dutch.

Should I bring food and drinks myself?

We will provide food and drinks free of charge. Coffee, tea, water, juices, and snacks are served at arrival and during the day. You'll get vegetarian sandwiches for lunch and will conclude the day with snacks and non-alcoholic drinks. Do you have allergies or specific preferences? After completing the registration form, email digiquest@inholland.nl with your name and dietary wishes, and we will try and accommodate.

What is the application deadline?

Friday, October 27, 2023. So don't delay, as only a limited number of participants are eligible for this exclusive and free event!

When will the event take place?

DigiQuest Amsterdam will take place **from November 15 to November 17, 2023**. High school students are invited on Friday, November 17. You are welcome from 8:30 A.M. at the Nemo Science Museum, and the event launches at 9:30 A.M. (pending update)

Can I also visit the NEMO Science Museum?

Participation at DigiQuest Amsterdam also grants you free access to the NEMO Science Museum.

What exactly is the DBW23?

DigiQuest Amsterdam takes place during the Dutch Blockchain Week, a multi-city festival of educational events organized by businesses, governments, and educational institutions. For more information, visit https://dutchblockchainweek.com/.

I'm coming from far. What are the possibilities to stay overnight?

Our hotel partners provide flexible lodging options for those traveling for an extended period. Arriving team members can receive a discount at several conveniently located hotels. Do you want to plan an overnight stay? Please email us at digiquest@inholland.nl with your name or the names of other participants.

I'm traveling alone to Amsterdam. Is there someone welcome me upon arrival?

Are you traveling alone, unfamiliar with Amsterdam, and would like guidance? Participating high school students who travel via public transport will be welcomed by our DigiQuest Welcome Team at Amsterdam Central Station. Please indicate in the registration form if you will come by public transport and use our Welcome Team service at Amsterdam Central Station.

May my parent or guardian accompany me to the event?

An accompanying parent or guardian is very welcome. Your parent can sit or work on the terrace or in the café. It is also possible to discover the Nemo Science Museum. The main event program continues until 5.30 P.M. (pending update). At the end of the programme, your parent or guardian will be waiting for you.

Didn't find all the answers you were looking for?

Are there still questions unanswered? Don't hesitate to email **digiquest@inholland.nl**; we will get back to you ASAP.

Registration form: **https://qrfy.com/p/applicationform**

Looking forward to seeing you and friends at DigiQuest Amsterdam!

Kind regards,

Richard John

Project leader DigiQuest Amsterdam,
powered by Inholland University of Applied Sciences.
